Free Public Event • Parking \$5

The U.S. Department of Energy Solar Decathlon

is an award-winning program that challenges collegiate teams from across the nation and around the world to design, build and operate solar-powered houses that are cost-effective, energy-efficient and attractive. During two weekends in October, visitors will have the opportunity to tour the Solar Village and houses.

The XPO is a clean, renewable and efficient energy exposition, featuring visionary and innovative companies, products and educational opportunities. Through fun, interactive exhibits and activities, the XPO will offer children and adults the opportunity to learn about the broad spectrum of energy efficiency.

For volunteer and field trip opportunities, visit the-xpo.org.
