

Make sustainability profitable. Instead of painful.

What is holding you back from going green? Perhaps you think sustainability is not an option for your facility. Or, you don't think it's cost effective. Maybe it's time to Think Green.®

An environmentally sound, solutions-based plan from Waste Management can actually give you greater control and efficiency at every level of your operations. We offer a comprehensive, integrated approach to your business. And we have proven safeguards for the handling, tracking and treatment of all categories of healthcare waste.

What's more, we've helped customers in other highly regulated businesses recognize more than \$60 million in value from what they used to throw away.

To learn how to inject green into your bottom line, visit healthcare.wm.com or contact our Healthcare Solutions specialists today at 1-877-383-8539.
